ASHMM

SUMMER 2006 NEWSLETTER

Greetings from the President!

We had a great turnout for our May 4th meeting at Wise Alloys. Paul Johnson was an excellent tour guide and host. The plant tour was very informative. We have a lot of CHMM activities coming up in the next six months:

- **August 3rd** is our next chapter meeting. The details are listed in this newsletter so I won't repeat it here.
- **September 17th – 20th** is the national ACHMM meeting in Orlando, Florida. I just registered this week and I am looking forward to attending. Mike Carter will be attending as our chapter delegate this year. Kim Perry, our 2007 President will also be attending. I hope that we can get at least 10 people from our chapter to attend. Remember that this meeting counts toward your recertification points and we all need those!
- **October 3rd – 5th** is our CHMM review course in Huntsville. Please help the chapter spread the word concerning this course to your peers. We need a minimum of 5 students to hold the course. Robert Tomlinson will be contacting members in September to assist in teaching.
- **November 3rd – 4th** is scheduled for our annual meeting. I recently visited the Gulf Shores area and things are looking good for that location, but we will need to decide at our next chapter meeting if we want to go to Gulf Shores or Birmingham for the annual meeting.

On a personal note, I recently attended my 25th high school reunion in Ozark, Alabama. It was fun to see those folks again and explain why "I grew up to be a hazardous materials manager." I still have no idea how many people were in my graduating class, but I am pretty sure I was the only CHMM there. What are you working on? How can ASHMM help you? Let us know! You can contact us at <http://www.ashmm-al.org/organization.html>

• *Theresa Jablecki-Kriel*

What: ASHMM Summer Meeting

When: 1:00 pm - Thursday, August 3, 2006

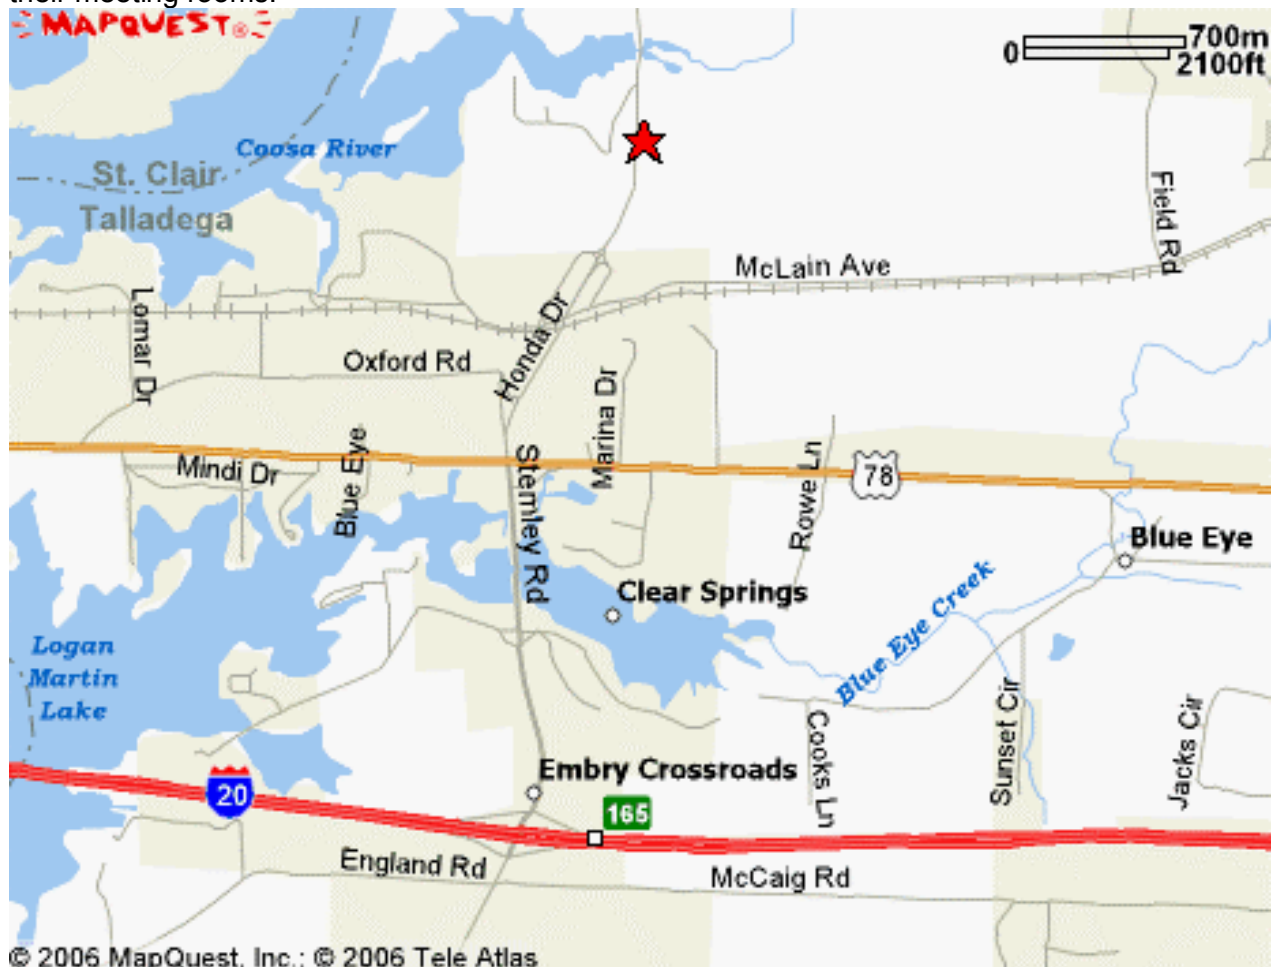

Where: Honda Manufacturing Facility, Lincoln, AL
1800 Honda Dr. Lincoln, AL 35096-5105
<http://www.lincolnalabama.com/index.html>

Lincoln, Alabama

MotorSports City

Thanks to ASHMM Member Jeff Lunceford for organizing our tour of the facility! The Lincoln plant manufactures the Honda Odyssey, Honda Pilot and V-6 engines. The tour of the plant starts at 1:00 pm. ASHMM members will participate in the general plant tour which will last about 1 hour and then follow-up with an environmental tour and presentation. Participants are required to wear long pants, closed heel and closed toe shoes and no cameras are allowed onsite. We will meet in the plant lobby for the tour, so don't be late! Our business meeting will be held after the tour in one of their meeting rooms.

Phones for Life, Inc. is the leading, nation-wide non-profit organization seeking to improve the lives of senior citizens, victims of domestic violence and adults with serious disabilities through cell phone technology. Founded in 1999 by Dr. Dee L'Archeveque, an emergency/critical care physician, Phones for Life is the only non-profit organization currently distributing free cell phones with minutes. Phones for Life relies on cell phone donations by individuals, corporations and schools nationwide. Click on this link for your tax deduction form <http://www.phones4life.org/tax.pdf>. Mail your old cell phones to the following address:

Phones for Life Inc.
2754 Foothill Boulevard
La Crescenta, CA 91214

ECO-CELL is another cell phone recycling organization with a strict **NO LANDFILL** Program for all items collected. This includes extra batteries, chargers, accessories, etc. Check out their website at <http://www.eco-cell.org/index.asp>.

ECO-CELL has a drop-off site located at the Birmingham Zoo!

EPA provides approved organizations for distribution of manifests

<http://www.epa.gov/epaoswer/hazwaste/gener/manifest/registry/printers.htm>

The Table of Approved Registrants provides information on organizations approved by the EPA Manifest Registry to print the RCRA hazardous waste manifest. The table provides information on how to contact organizations to obtain forms.

No.	Registrant Name	Are Manifests for Sale?	To Purchase Manifests, Please Contact:	Approved Manifest Tracking Number (MTN) Suffix	Approval Date
002	J.J. Keller & Associates, Inc.	Yes	1-877-564-2333 www.jjkeller.com/manifest	JJK	05/16/06
005	The Flesh Company	Yes, through distributors. Call for contact information.	1-800-745-7910	FLE	05/18/06
003	Welsh & Associates	Yes	317-894-8100 www.welsh-associates.com	WAS	05/25/06
009	Giant Resource Recovery	No		GRR	05/26/06
007	Genoa Business Forms	Yes	347-823-9400 www.form8700-22.com	GBF	06/16/06

As of May 16, 2006, 19 registrants had submitted an initial application for EPA approval to print the new hazardous waste manifest. Once their initial application is approved, they will be asked to submit form samples for EPA evaluation. If we find the samples acceptable, they will be approved to print the form for use and distribution.

The vast majority of registrants intend to sell the form to the general public. Based on their level of interest, we expect to have ample stocks of the new manifest available prior to September 5, 2006.
